

## Village Wall with Posters

**Primary Maker**

Henry Sugimoto

**Medium**

Watercolor on artist's board

**Description**

Framed. Image of a village wall with neon posters in France. Along a sidewalk with patches of grass the uneven wall hosts a variety of square and rectangle shaped posters in different colors; writing or figures are not visible on the posters. The wall includes a small entrance in the center leading into a courtyard. The scene characterizes an interesting, underrated feature of French social life.
